Experience the perfect digital home experience with the ZOTAC GeForce 9300-ITX WiFi. Harnessing the power of NVIDIA's GeForce 9300 graphics processor, the ZOTAC GeForce 9300-ITX WiFi delivers NVIDIA PureVideo HD technology for flawless high-definition Blu-ray playback and superior scaling of standard-definition videos, and NVIDIA CUDA technology for accelerated video processing capabilities.

The ZOTAC GeForce 9300-ITX WiFi pairs the GeForce 9300 graphics processor with Intel socket LGA775 processors – Intel Core 2 Duo, Core 2 Quad, Pentium and Celeron up to 1333 MHz front-side bus – for a high-performance platform that's ready to take on high-definition video playback yet only occupy a 170mm x 170mm mini-ITX footprint. Hybrid SLI, PCI Express 2.0 x16, DDR2, high-definition audio and SATA 3.0Gbps technologies enable the ZOTAC GeForce 9300-ITX WiFi to have expansion potential worthy of a home theater PC.

**Note :** The Original CPU heatsink which comes with Boxed CPUs is too heigh for almost all ITX enclosures. Thats why it does not fit into every enclosure.

With [LowProfile heatsink/fan](#) compatible with :

- M300(-LCD)
- Morex enclosures 2699/3677/3777/3688

For Operating you need a P4 adapter or a PSU with P4 connector
